QA + QC = Lower Risk
for Builders

Construction-defect
litigation represents a
multibillion-dollar
liability exposure for the U.S. residential
construction industry

Internal, field and
customized client-
facing training

Protect Your
Reputation and
Improve the Customer
Experience

WE WORK WITH

100%

OF THE **TOP 20**
BUILDERS

Effective Field
Communications
With Our Clients

We invest in subject
matter experts
and compliance

We stand by the quality of our work,
providing litigation support when required.

Improved Construction Quality...

... can lead to:

- Fewer warranty claims
- Lower severity of claims
- More predictable warranty performance
- Reduced rework and administrative costs
